# DEDICATED TO

Alan Parker Tuttle  
Assistant Professor of Horticulture

During the fall of 1930 an addition was made to the staff of the Department of Horticulture. This man originally graduated from Massachusetts Agricultural College and had just obtained his M.S. from Pennsylvania State University. He has grown to be an important part of the University and Stockbridge, not important administratively, but for his contributions to the students who have had the good fortune to encounter him in his thirty four years here. His contributions have not been limited to classroom relationships; he has worked with 4-H Clubs, F.F.A. groups, and Boy Scout movements. Active in athletics during college this man has maintained his interest in sports, as assistant coach when Stockbridge had a varsity football team and now as an official at University field and track events. Presently he is advisor to both the Stockbridge Student Senate and Alpha Phi Omega, the service fraternity. We could go on extolling this man's virtues but this is unnecessary because of his deeds for which he is well known. The class of 1964 is honored to dedicate the 46th edition of the Stockbridge School yearbook, the *STOSAG*, to Mr. Alden P. Tuttle, Assistant Professor of Horticulture. He will be missed by us when we have gone. We hope this yearbook is somewhat worthy of what he has given us.

Stockbridge School of Agriculture

---

ASSOCIATE DEAN AND DIRECTOR

**Administration  
and Faculty**

President of the University, John W. Lederle, has often spoken of the Stockbridge School's part in the total University program and the way in which its graduates have distinguished themselves. He has played an important part in having our school's graduates receive the Associate's Degree in Agriculture.

It is hoped that under his leadership the relationship between Stockbridge School and the University will remain as fruitful as it has in the past.

Arless A. Spielman, Dean and Director of the College of Agriculture, is a national leader in the agricultural field. Though he is seldom in personal contact with the Stockbridge student, our school's program has been greatly enriched by his association, an association which we are proud to have.

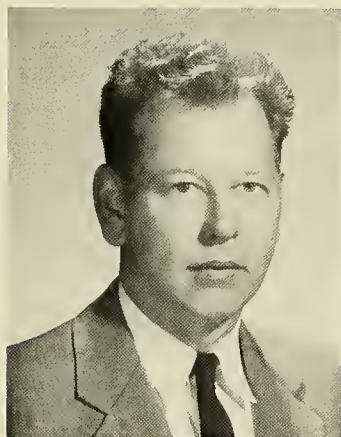

DIRECTOR of the Stockbridge School, Fred P. Jeffrey is personally known by each and everyone of us. He has played an important part in giving us the appropriate portions of theoretical and practical experience which bring us academic excellence in our own specialized professions.

It is his personal interest and keen understanding which makes him stand foremost in our mind.

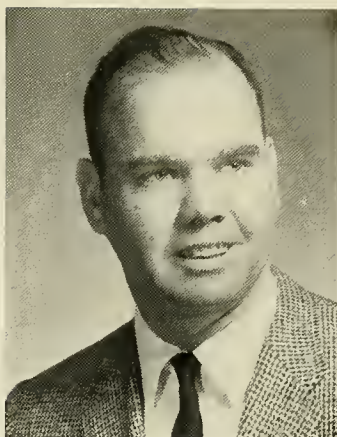

The Stockbridge School's continued growth and development under Mr. Jeffrey's able leadership will broaden our School's outstanding record of leadership in business, industry and agriculture.

A warm and friendly smile, always able to find time for the individual, this describes William F. Field, University Dean of Students. He has earned many lasting friendships with Stockbridge students.

Animal Science gives one an opportunity to work with animals and/or related subjects. Years ago one thought of animal science as a study of milking cows, feeding chickens, cutting hay, etc. Today, because of advanced knowledge, animal science is a study of genetics, physiology, nutrition, and many other fields. Animal science is a broadening field which is continuously expanding with the growth of our nation. A career in animal science enables one to work with other industries toward a better tomorrow.

In the Senate each major, club, and organization is represented, enabling each student to have a voice in our school's student government. All of its activities are co-ordinated in committees.

This year many improvements were made to our "cinder block" dormitories and once again, due to the Senate's hard efforts, the Sno-Ball proved very successful.

Its functions are many and varied but are always directed toward improving the academic and social affairs of the student.

Early in 1962, in an attempt to establish a better relationship between the Stockbridge School and the University, the Stockbridge Service Organization was formed. Working closely with the four-year counterpart, Alpha Phi Omega, Stoso has engaged in several projects which have greatly benefited the campus community. Nearly all of the Stockbridge functions are either sponsored or assisted by Stoso. This past year Stoso worked with R.S.O. in an effort to co-ordinate the activities of hundreds of Recognized Student Organizations on campus. One of the largest projects Stoso completed this year was raising funds for the awarding of four-one-hundred dollar scholarships to Stockbridge students.

A vital link between faculty and students and between student and student is the *Shorthorn*. One might learn of a placement opportunity, the life history of a professor, or of the time and place of a club meeting. This is the third year and the best so far, of publication for the *Shorthorn* and its newness coupled with inexperience in the staff have held its scope primarily to social and athletic affairs. Age and added depth will surely give the *Shorthorn* a more comprehensive view of campus and student affairs.

The Judiciary is formed in the pattern of the American Judicial Court, that is the defendant is innocent until proven otherwise. The benefits to members of the Judiciary and students are numerous because students are judging students and there is a greater understanding of the offenses. We feel that the Judiciary not only promotes better student discipline but also teaches the students the true meaning of American Government. As stated by our late President, John F. Kennedy, "The future of America lies in the hands of the new generation, which is you, thus we must improve our moral standards through learning and fair judgment."

Alpha Tau Gamma was founded at the University of Massachusetts in 1919. It was founded by, and exclusively for, Stockbridge School students. It is a close link between the two-year and the four-year students being active participants in all inter-fraternity events.

The green and gold has shown itself to be a true social fraternity with their frequent parties and exchange suppers with University and Stockbridge sororities. They have also invited Stockbridge professors to dinner. This is a means of creating a good relationship between the faculty, the student body, and the fraternity.

This year A.T.G. initiated a building fund. They have received a tremendous response from the alumni and hope to have a new fraternity house by 1970. With their alumni rejuvenated, there is much to expect in the years ahead.

strategy

Eight lettermen returned to form the nucleus of a potentially great soccer team. It appeared that this team could get up and really go. However, this potential was never fully recognized due to lack of practice time, lack of depth, or lack of previous experience. More often than get up and go, the team couldn't quite catch, losing, when it did, by only narrow margins for a record of 1-4-1.

A large number of freshmen are returning, and with the great spirit they've shown, next year's team should have a more successful season. More important, they will benefit, as the teams past, in a feeling of comradeship and sportsmanship.

Co-Captains John Halunen and Jerry McCarthy with Coach Berquist.

November 12th was the beginning of one of Stockbridge's most successful basketball seasons. That was the first day the team met and soon after forty players turned out for the first practice. The turnout was led by co-captains Jerry McCarthy and John Halunen and seven seniors. The tough job of selecting the fifteen-man team was left to Coach Berquist.

The team was characterized by a fine show of spirit. After losing its opening game to Northampton Com-

mercial College the team bounced back to beat Windsor Mountain for the start of a four game winning streak. When the season ended the team's record was ten wins and four losses.

Congratulations and thanks to Coach Berquist for the excellent job of coaching the team to such a successful season. High scorers Hunter and Nooth will be back next year giving promise of another fine season.

## Targeteers Down Pups

# Stockbridge Over Yale

With an overall record of nine wins and three losses it has turned out to be the finest year so far for the 'targeteers.' Impressive victories were scored over the Yale and Univ. of Mass. Freshmen. Against Yale an all-time high scoring record of 1389 was made.

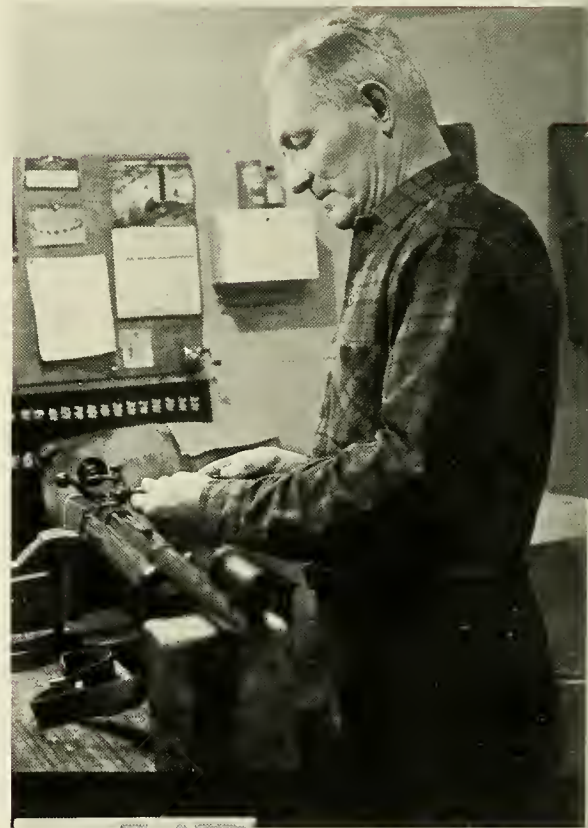

Jim Rocha was the team's 'big gun' this season. Other standouts include seniors Richard Porter, Harold Anderson, Clem Tourigny, and freshmen Steve Dicks and Jim Annese.

There are three matches remaining and each of these encounters will prove difficult but the team is eagerly waiting their arrival in order to scratch up three more victories. A win over Dartmouth will enable Coach Marchant to say once again, "A winning year over the ivy-league contingent."

## HOCKEY

Captain Matt Connelly—Outstanding Member with Coach John Faucette.

This year Stockbridge School made large strides towards permanently establishing a hockey team. A meeting was called in December by Steve Kosakowski and all interested players were to report to Curry Hicks Cage, Room 9. More than forty students showed up and Steve explained some of the problems the team was up against and what was expected of them as players. He introduced them to their new coach, Mr. Faucette, a University graduate. Because of the prolonged warm weather no definite practice date was set and it wasn't until January that the first practice was held.

Considering the limited amount of practice time that they had, the Stockbridge hockey team did very well. Three games were scheduled. They lost two by very close scores, one to the University freshmen and one to Mount Hermon but were victorious over Deerfield Academy 4-2.

The advent of a University-owned rink and consequently more practice and an enlarged schedule will lead to increasing success for the Stockbridge skaters.

# Stockbridge Campus X-Country Champs

Everett Wilbur for a first.

This year's Stockbridge cross country team emerged as campus champs in intramural cross country. Led by Captain Everett Wilbur, a powerful Stockbridge team placed six men in the top ten to capture individual and team honors in the annual intramural cross country meet held Saturday, November 2, 1963. The rain-soaked course slowed Wilbur so that his winning time of 7:27.7 was well behind the record he set last year. Following Everett in close second was Robert Charlton and a tie for fifth by Bud Backery and Wendell Nooth.

# SNO-BALL

This year, as in the past, the annual Sno-Ball Dance was one of the big highlights of the Winter Carnival Weekend. Everyone there enjoyed the evening, dancing to the fine music of Bobby Kaye and his orchestra along with female vocalist Conni Vignone. Among the guests who attended were President and Mrs. Lederle, Dean and Mrs. Field, and Dean and Mrs. Jeffrey.

The climax of the evening was the selection and crowning of the Queen and her Court. Dean Jeffrey crowned the Queen.

To all who attended, the Sno-Ball proved to add to the completeness of the weekend festivities.

The Progress Banquet annually proves to be the biggest school event. This year was no exception. The largest number of students in the school's history received scholastic awards, much to the pleasure of Dean Jeffrey. 'S' Awards were given to all the athletic team members and the student body made their presentation to the outstanding professor and dedicated the yearbook. Progress indeed; for every year the list of awards lengthens in which encouragement and recognition are given for high scholastic and athletic ability and also outstanding student participation in extra-curricular activities.

Professor Joseph Troll receiving the Outstanding Professor Award from John Traynor, Senior Class President.

Dean Jeffrey presenting Daniel Adams with a C. H. Hood Scholarship.

Alan King, Jim Padula, Albert Cyr, and Vincent Norrman receiving the Stoso Scholarships from Stoso's Treasurer, Dave Calverly. It looks like Al Cyr is already planning what to spend his on.

Stop & Shop Vice-President, Mr. Charles R. Carroll presenting Thomas Kelly with the Stop & Shop Scholarship.

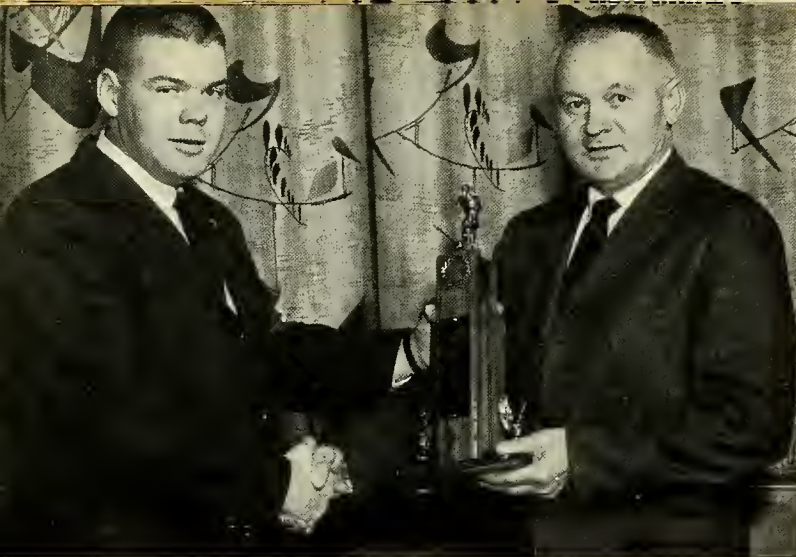

Faculty Advisor to Stoso, Professor Robert Bruce presenting Steve Elmont with the Outstanding Stoso Member Award.

Ray Yelle, yearbook editor, officially dedicates the '64 Stosag to Professor Alden Tuttle.

Bruce Johnson, the senior with the highest quality point average, receives the New York Farmers' Scholarship from Dean Jeffrey.

Mike Burke, one of the four recipients of Athletic Outstanding Member Awards, receiving his trophy from Coach Kosakowski.

Coach Kosakowski presenting the Soccer 'S' Awards. Bob Charlton can't believe it.

Coach John Marchant presenting the Rifle 'S' Awards

## 1964 LITTLE INTERNATIONAL

The 24th Little International Livestock Show was presented at Grinnel Arena by the Animal Husbandry Club. Participants were the Stockbridge Animal Science Seniors and the University Animal Science Juniors. The show this year was dedicated to DAMSEL, the foundation mare of the University Morgan Horse band.

In the Little International, students are judged on their ability to prepare, fit, and show an animal of their choice that they have worked with for six weeks prior to the show. Individual winners in the beef, sheep, swine, and horse classes are awarded prizes and ribbons for their accomplishments in the show.

In addition to the hilarious "Coed Milking Contest", a new special event was instigated this year. The "Greased Pig Contest" enlivened the show and was enjoyed by all — except the participating exhausted pigs.

The show serves a dual purpose in that it promotes a spirit of competition and sportsmanship among the students and serves as a classroom aide in giving the students a chance to put their 'learnings' into practice.

"The society which scorns excellence in plumbing because plumbing is a humble activity, and tolerates shoddiness in philosophy because philosophy is an exalted activity, will have neither good plumbing nor good philosophy. Neither its' pipes nor its' theories will hold water."

John W. Garner, President of the Carnegie Foundation

# ACKNOWLEDGEMENTS

The following people have contributed greatly to the success of the 1964 Stosag and to them we extend our sincere thanks:

to Professor George Goddard, Stosag advisor, for generously giving many hours of assistance.

to all the students of Stockbridge for their co-operation.

to Dean Jeffrey and his office staff for their many suggestions and favors.

to the Grenier-Ducharme Studio for their co-operation and excellent photographs.

to all the members of the Student Activities Office for assisting us with many problems.

to all the members of the University News Office for their suggestions and photographs.

to Bob Surrette of the University Collegian Staff for his assistance and photographs.

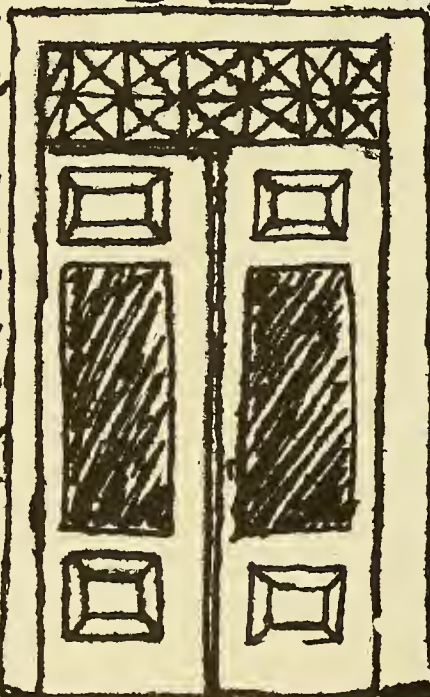

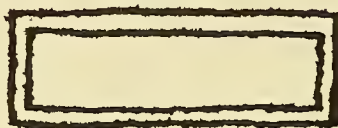

and to all others who have in any way contributed to make this yearbook a success.
